ABOUT ME

Passionate and driven Computer Science student with a deep love for coding and a relentless curiosity for learning. Eager to expand my knowledge in Machine Learning, Artificial Intelligence, and competitive programming, while honing my skills in web development using HTML, CSS, and JavaScript. Aspiring to become a skilled developer who creates impactful, innovative solutions. A team player at heart, I thrive on collaboration and bring a positive, empathetic energy to every project. Always seeking opportunities to grow, contribute, and make a meaningful difference through technology.
